DETAILED ACTION

Claims 1-2 and 4-28 are pending.

Election/Restrictions

1. Claims 1-2 and 4-28 are generic to a plurality of disclosed patentably distinct species comprising tri-block copolymer film formers. The number of tri-block copolymers disclosed represent a serious burden on the Examiner. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. By species is meant a single polymer.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Willis whose telephone number is (703) 305-1679. The examiner can normally be reached on Mon. to Fri. from 9 a.m. to 5:30 p.m.
